Advances in Psychiatric Treatment

Journal of Continuing Professional Development
The Royal College of Psychiatrists

2003 Index (Volume 9, Issues 1–6)
Compiled by Caroline Sheard
Adams, Tony 66
addiction see substance use
ADHD see attention-deficit hyperactivity disorder
adolescence, deafness in 97–8
adolescent psychiatry see child and adolescent psychiatry
adult learning, principles of 311
advanced sleep phase syndrome 71
advances in psychiatric treatment 239–40
Advances in Psychiatric Treatment 82
online discussion forum 84–5
adverse outcomes in child psychiatry 320–2
affective disorders
drug therapy in childhood and adolescence 90–2
lesion-deficit studies 446–7
neural systems underlying 446–55
neuroimaging 449–53
see also bipolar affective disorder; depression
alcohol misuse, literary and biographical perspectives 62–4
dependence, and diminished responsibility 149
see also intoxication; substance use
Alzheimer’s disease see dementia
amphetamines, modified-release preparations 88–90
Angelman syndrome 126
antidepressants
augmenting/combining 16, 17
dose increase 14–15
as effective choice 12
length of treatment 17–18
non-response/resistance to 14, 15
potential clinical benefits of continuation/maintenance 18
response to 13
sexual side-effects 202–10
switching between 15–16
‘zones of uncertainty’ in benefits from 13–14
antipsychotic drugs, sexual side-effects 202–10
anxiety, in palliative care 244
anxiety disorders
with attention-deficit hyperactivity disorder 290–1
in child and adolescent psychiatry 289–91
APOE 4 allele and dementia 34
appraisal
consultant medical staff 152–4
and continuing professional development 3–4
framework for information and documentation requirements 156
information for 155
and personal development plans 5–6
process 154–5
approval under Section 12(2) of the Mental Health Act 1983 38–44
Arnold Lodge, Personality Disorder Unit 352
assertive outreach and learning disability services 366–73
ataxia in childhood 131, 132
attention-deficit hyperactivity disorder (ADHD)
with anxiety disorders 290–1
drug therapy 87–90
with Tourette syndrome 294–5
Australia, studies of expressed emotion 344
autism, drug therapy 291–3
autobiographical narrative and psychiatry 265–71
automatisms and intoxication 149
Bayley, J., Iris: A Memoir 440–1
Beckett, Samuel 216
Beers, C.W. 267–8
Bernlef, J., Out of Mind 439–40
bibliotherapy 220
bipolar affective disorder
acute episodes 110–11
cognitive therapy combined with drug therapy 110–16
drug therapy in childhood and adolescence 91–2
lesion-deficit studies 446–7
neural systems underlying 446–55
neuroimaging 449–53
prodromes 111–12
relapse 110
relapse prevention 111
blindness see visual impairment
blood pressure 420–2
body image and palliative care 246
British Sign Language see sign language
Brugada syndrome 415, 416
Bukowski, Charles 63–4
bullying of prisoners 196
buprenorphine 281, 282
burnout 276
Burroughs, William S. 65, 67
Burton, Richard, Anatomy of Melancholy 271
carers
assessment of psychological needs 45–53
coping strategies 50–1
definitions 46
disclosure of diagnosis of dementia 335–41
in ethnic minority communities 169–70
factors influencing outcomes for 49–51
Government policies relating to 46, 47
of immigrants with dementia 36
models for understanding reactions of 46–8
personal impact of providing care 46
scales for stress measurement and coping 48–9
statistics related to 46
Catha edulis (khat), adverse effects 456–63
cathine 457–8
cathinone 457–8
CBT see cognitive–behavioural therapy
child and adolescent psychiatry
adverse outcomes 320–2
anxiety disorders 289–91
drug therapy 86–94, 289–99
errors in 319–20
ob sessive–compulsive disorder 291
risk management in mental health services 319–26
schizophrenia 295–6
Tourette syndrome 293–5
use of telemedicine 58–9
children
deafness 97–8
looked after, mental health 248–57
neurological examination 125–34
relationship between development and mental illness 303–4
visual impairment 100–1
China, studies of expressed emotion 344–5

definition 400–1
psychiatric 327–34
Disability Discrimination Act 1995
397–404
discharge planning, use of
telemedicine 57
doctors see general practitioners;
health professionals
Donne, John 214
dopamine and sexual function
204–5
drug addiction see substance use
drug therapy
anxiety disorders in child and
adolescent psychiatry 289–91
attention-deficit hyperactivity
disorder 87–90
autism 291–3
bipolar affective disorder
in childhood and adolescence
91–2
combined with cognitive therapy
110–16
cardiovascular effects 414–34
child and adolescent psychiatry
86–94, 289–99
depression 11–20
in childhood and adolescence
91–2
obsessive–compulsive disorder in
child and adolescent psychiatry
291
schizophrenia in child and
adolescent psychiatry 295–6
social phobia 263
substance use 280–1
Tourette syndrome in child and
adolescent psychiatry 293–5
DSPS 70–1
Dutch courage 148
dying see death
dysmorphia 125, 126
dystonia in childhood 131, 132–3
education, protection from
discrimination 403
educational objectives, SMART 9
Egypt, studies of expressed emotion
344–5
emotional disorders and deafness 99
employment
assessment for 332–3
barriers to 329
importance of 328–9
and mental illness 327–34
protection from discrimination
401–2
sheltered 330
supported 330–1
work schemes 330–2, 332–3
epidemiology, in-patient treatment
302–4
epilepsy, nocturnal frontal lobe 75
errors in child psychiatry 319–20
ethics and training for approval
under Section 12(2) of the Mental
Health Act 1983 43–4
ethnicity
definition 32
and expressed emotion 342–8
and language 170–1
and learning disabilities 166–76
of looked after children 249
and minority experience 166–7
evidence, admissible 181
evidence base for cognitive–
behavioural therapy in depression
21–30
examination-in-chief 184–5
experiences, responses to 81
expert, definition 179–80
expert testimony
in court 183–90
general principles 177–82
Ireland (Republic of) 178
Scotland 187–9
exploding head syndrome 75
expressed emotion
components of 342–3
and culture 342–8
eyes, paediatric examination 128–30
family, involvement in palliative care
246–7
family therapy in substance use 285
Ferguson, Sarah 268
fetal alcohol syndrome 129
first drink of the day test 149
fitness to plead 189–90
Fitzgerald, F. Scott 62–3
forensic psychiatry, use of
telemedicine 59
forensic psychotherapy
areas of concern 122–3
contribution to care of forensic
patients 117–24
provision of services 118
role of 119–22
foster carers 254
fragile-X syndrome 126
Frame, Janet 268–9
gender roles and learning disability
168–9
General Medical Council,
revalidation 3, 5–6
general practitioners
training for approval under Section
12(2) of the Mental Health Act
1983 40
use of telepsychiatry 56–7
General Register Office 301–2
globalisation and psychiatry 464–74
graded self-exposure in social phobia
260
